# Kanban

ONLINE with Projektron BCS

Use **Kanban boards** online to visualize tasks in the project and tickets to tasks

✓ **Overview** of the project's tasks, their processing status, priority and the processing team.

✓ Assign tasks and tickets to the respective processing status via **drag-and-drop**.

✓ Assign **employees** to the various tasks using drag-and-drop.

✓ Editing of the most important ticket data possible via a **dialog window**.

✓ Set **WIP limits** for tasks and tickets in their respective statuses.

ADDITIONALLY IN PROJEKTRON BCS

Benefit from additional Projektron BCS standards:

✓ Efficiently manage capacity with resource forecasts and stacked workload diagram.

✓ Practical drill-down functions for quick navigation into deeper project dimensions.

✓ Use project reports to inform stakeholders as needed.

✓ Track the contribution margins of your projects with cost evaluations.

✓ Support of work organization with the help of overviews of workflows, checklists, reminders and deadlines.
